

Teaching practice

The practice is a teaching practice and occasionally trainee GPs may, as part of their training, be required to sit in with their trainer GP during consultations with patients.

You will always be asked if you consent to this prior to your consultation. If you do not consent, the trainee will not sit in on your consultation.

How to register at the practice

The quickest way to register is to use the practice website. You must live within the practice area which is shown on the website. If you are unable to use the website, please contact the practice for information about how to register.

Access and support for disabilities

The practice offers step free access to the premises. Additionally, there is a hearing loop on the reception desk, large print leaflets are available, and we also have dementia friendly signs.

We welcome Assistance Dogs although animals are not permitted in any clinical areas.

Patients' rights and responsibilities

When registering, you have a right to express a preference to be seen by a particular GP. This will be recorded on our clinical system and, where possible, you will be allocated appointments with that clinician. All patients will be assigned an accountable GP.

Further information about your rights and what we expect of our patients are detailed within the [NHS Constitution](#).
